Summary

Highly motivated individual with proven abilities working independently and collaboratively in teams across many projects. Looking to make a positive difference in the world through statistical insight.

Education

North Carolina State University | Raleigh, NC

Master's of Statistics

May 2020

GPA: 3.95

Bachelor of Science in Statistics with a Minor in Mathematics

May 2019

Major GPA: 3.78, Cumulative GPA: 3.64

Magna Cum Laude, Mu Sigma Rho National Statistics Honor Society, ASA student chapter president

Relevant Coursework:

Regression Analysis, Statistical Methods I & II, Experimental Design, Mathematical Statistics I & II, Statistical Computing & Data Management, Intermediate SAS Programming, Applied Time Series Analysis, Applied Bayesian Analysis, Applied Multivariate and Longitudinal Data Analysis, Survey Sampling, Introduction to Statistical Learning, Matrix Theory

Skills & Certifications

SAS • Python • R • SQL • Unix • Git • CDISC

ADaM Core Theory and Application

Dec 2024

Human Subjects Protection Training

Nov 2022

GCP for Clinical Trials with Investigational New Drugs and Medical Devices (U.S. FDA Focus) Training

Oct 2022

Certified Advanced Programmer for SAS 9

May 2019

Certified Base Programmer for SAS 9

Sep 2017

Languages: English (native speaker), French (A2/B1)

Professional Experience

Fred Hutch Cancer Center – Statistical Center for HIV/AIDS Research and Prevention

Seattle, WA

Statistical Research Associate III (remote)

Aug 2023-Present

Statistical Research Associate II (remote)

Oct 2022-Aug 2023

- Participated in and lead protocol team, interim data review, and internal team meetings
- Drafted and carried out SAPs for protocol specified primary, secondary, and exploratory analyses
- Developed timelines and action plans for statistical requests from network partners
- Lead statistical report development for interim reviews (SMCs), manuscripts, and final study reports.
- Communicated with network partners effectively including project milestones and projected completion dates
- Worked closely with the statistical programming team to develop TLF shells and dataset specifications
- Assisted in study start-up and study closeout activities
- Presented regularly in team meetings on educational topics
- Mentored more junior SRAs

WCG Statistics Collaborative

Washington D.C.

Biostatistician I (remote)

Dec 2020-Oct 2022

- Collaborated across project teams to analyze clinical trial data
- Performed statistical programming in SAS to produce production tables, listings, and figures

Michael Burton

Chattanooga, TN 37405
(252) 648-1266
meburton@alumni.ncsu.edu
[MichaelEBurton.github.io](https://github.com/MichaelEBurton)

- Drafted table shells for data monitoring committee (DMC) reports
- Contributed to report development
- Recorded DMC open and closed session meeting minutes
- Assisted in implementation of new version-control software
- Led new employees through training and orientation period

Statistical Practice Consulting Course

Raleigh, NC

Statistical Consultant

Jan 2020-May 2020

- Effectively communicated with clients to understand the research problem of interest
- Analyzed experimental data on a novel colorimetric assay to recommend changes to current layout
- Read, wrangled, cleaned, and analyzed data in R

The Boeing Company

Seattle, WA

Data Science and Analytics Intern

May 2019 – Aug 2019

- Collaborated with an interdisciplinary team in Product Development's, Advanced Materials & Fabrication Group
- Analyzed experimental data and built predictive models using R
- Presented on the importance of tidy data and experimental design

Hanesbrands Inc.

Winston-Salem, NC

Advanced Analytics Intern

Jun 2018 – Aug 2018

- Performed clustering analysis in SAS to identify informative profit segments of bra styles from 36 million data points
- Built statistical model to find optimal color mix for bra styles to grow sales and reduce excess inventory
